ADDENDUM 1  
2017 NEW 15-PASSENGER MINI-BUS**

**DATE:** February 16, 2017

**FROM:** Jennifer Nellis, Purchasing Agent

A handwritten signature in black ink, appearing to be "JN", is written over the name "Jennifer Nellis" in the "FROM:" line.

**BID DUE DATE:** **WEDNESDAY, MARCH 1, 2017 BY 1:00 P.M. OUR CLOCK**

The following information is being provided to all prospective bidders and is hereby made a part of the above-referenced bid documents. **Bidders must acknowledge this Addendum 1 with their bid.** This addendum is a total of four pages.

**CLARIFICATION, ADDITIONAL INFORMATION AND CHANGES:**

1. The bid specs look like a regular 15-passenger bus and then it asks for an ADA Compliance Package. Just to be clear, you do want a wheelchair lift for the bus, correct?

No. The City does not need wheelchair accessibility or luggage storage space in this vehicle. A small amount of space behind the back seat is requested.

2. My question is regarding the "School bus rollover testing" spec on page 12 of the RFB. It is my understanding that most shuttles with fiber glass bodies will not meet this requirement; however, many activity buses, MFSABs and school buses will, in fact, meet rollover testing. Am I to assume that your Active Adult division is requesting one of these rather than a shuttle bus?

Yes, we are specifying an activity bus that meets Federal Motor Vehicle Safety Standards (FMVSS) with respect to rollover testing standards. Basically, this requires a welded steel cage construction for the passenger compartment to serve as an additional safety factor in the event of a rollover accident.

3. Other specification changes have been identified, therefore please use the REVISED ATTACHMENT A pages included with this Addendum.
