**License Plate Reader Equipment / Data Collection**

**I. INTRODUCTION**

**A. General**

The City of Wheat Ridge (the “City”) Municipal Building is located in the northwest Denver metropolitan area, with municipal offices at 7500 W 29<sup>th</sup> Avenue, Wheat Ridge, CO 80033. The City’s area consists of about nine square miles of rolling land adjacent to the Interstate 70 transportation corridor between Denver and the Rocky Mountains. The topography is somewhat unique, with a natural ridge traversing the City. The City is a suburban community of approximately 33,000 residents. The City is a home-rule municipality with eight council members, and a city manager and mayor form of government.

**B. Background**

The City has been awarded a reimbursement grant from Colorado Auto Theft Prevention Authority (CATPA) and the CATPS-Metro Auto Theft Task-force (CMATT) to purchase and implement License Plate Reader (LPR) equipment and technology. As a result, the City of Wheat Ridge Police Department is seeking to purchase license plate reader equipment, and support services, for installation at two intersections on Kipling Ave.

The grant of \$66,000, is to include access to Lumen, LPR equipment, data collection, warranty and annual fees. All aspects will be considered when determining best value within the limits of the grant. The grant requires delivery, installation (by City staff as an option) and invoicing prior to June 30, 2021.

**C. Objectives**

The City of Wheat Ridge Police Department, and the grant, require LPR equipment and technology for two intersections at W. 48<sup>th</sup> Ave. and Kipling St. and W. 49<sup>th</sup> Ave. and Kipling St. Interested proposers must become familiar with the site conditions at the two intersections prior to submitting proposals.

Equipment will be fixed LPRs installed on traffic signal posts. The awarded vendor will be required to supply LPR cameras, mounting brackets, video and power cables, Lumen connection, and output services. The grant requires the LPRs purchased to include a 5-year maintenance and product warranty. Proposals need to include the Lumen connection fee and should note any recurring annual costs for years 2 – 5, as only year one is to be invoiced and reimbursed by the grant. All data use and handling shall comply with the current laws and statutes with respect to the data.

**II. SPECIFICATIONS and STATEMENT OF WORK**

Fixed LPR equipment shall be in a quantity sufficient to obtain data in north and southbound directions of two three-lane intersections:

W. 48<sup>th</sup> Ave. and Kipling St.

W. 49<sup>th</sup> Ave. and Kipling St.

LPRs shall be provided in sufficient quantity to obtain data from three lanes of northbound, and three lanes of southbound traffic at each intersection (at a minimum). West bound traffic information is desirable.

LPRs must have high enough resolution to ID/verify the plate and ideally the vehicle make/model

Data obtained shall include: date/time, latitude/longitude, useable photo (high resolution- refer to statement above)

Identify data ownership and hosting location or service

5-year product warranty

5-year maintenance warranty

Lumen connection

Identify cell or ethernet connection requirements

All mounting brackets, video and power cables needed to mount equipment on traffic signal posts

Installation (by LPR installer and also advise regarding installation by City technician)

All installation work will be conducted during normal business hours, 7:30 AM to 5:30 PM, Monday through Friday.

Submittals must identify make/model specifications and accurate product attributes.

Proposals will not be deemed responsive if exceeding the established grant budget
